PROFILE

I am currently working on Big Data projects, where I design and develop different tools (e.g. CLI, desktop apps, web apps) to analyze, transform and distribute the data to different systems.

PYTHON   **NODE JS**   **REACT**   **IOS**

EXPERIENCE

Deloitte

Consultant at Risk Advisory   2021 - now

Design and development of ETL processes.
Python, Pandas, Spark, SQL.

Design and development of a decentralized dashboard for the control and monitoring of the status of different entities in different systems.
Node JS, Next JS, React.

Design and development of APIs to communicate between different services.
Python, Flask, SQL, Mongo DB

MAIN SKILLS

WEB (FRONTEND & BACKEND)

PYTHON   **NODE JS**   **REACT**   **TYPESCRIPT**

CLOUD

GCP   **AWS**   **KUBERNETES**   **MICROSERVICES**   **DOCKER**

MACHINE LEARNING & DATA ANALYSIS

TENSORFLOW   **KERAS**   **PYTORCH**   **SCI-KIT**   **PANDAS**   **SQL**   **MONGO DB**

MOBILE

SWIFT   **REACT NATIVE**

EDUCATION

MSc in Telecommunications Engineering

Université Libre de Bruxelles   2018 - 2019
Universidad Politécnica de Madrid   2019 - 2020

Speciliaty field   Machine Learning

Degree in Telecommunications Engineering

Universidad Politécnica de Madrid   2014 - 2018

Speciliaty field   Telematics

LANGUAGES

English   C1
Spanish   Native

OTHER

GCP Cloud Digital Leader Certificate   2021

3rd Position in Bisnode and
Datacamp Data Challenge   2020

Driving License   2014 - now
